

Vista Hot Food Display

The latest in a long line of stylish yet highly functional food service products. The new Vista Hot Food Display is the perfect complement to the Vista 40 baking oven, and offers the same attractive profit making opportunities. With 360° visibility wherever the unit is sited, the Vista display will enhance any front of house foodservice operation.

Combining stainless steel, polished chrome, toughened glass and high quality polycarbonate to stunning effect, the unit can be used as a counter top unit with through loading and customer self service if required. Like all King Edward products this unit is hand finished in the UK to ensure optimum operating efficiency and hard wearing good looks.

Use the Vista Hot Food Display to store and present all types of food – from croissants, pastries and bread products – to pies, pizza and even potatoes.

Who says food displays need to be box-like and boring?

Key features:

- Superb 360° visibility to hold and present a wide range of cooked foodstuffs prior to serving.
- Innovative design ensures the same unit can be used without modification as either a counter top or back-bar unit with equal effectiveness.
- Food grade stainless steel oven interior with fully removable wire trays for safe and easy cleaning.
- Through loading with option of customer self-serve facility from the top area.
- Cabinet air temperature: 30° to 110° C to ensure foods stay warm.
- Humidifier unit supplied as standard to stop foods drying out whilst on display.

Technical:

- 3 x fully removable wire shelves (800mm W x 800mm D) for maximum cooking flexibility
- External dimensions: 640mm H x 490mm W x 575mm D with display doors in closed position.
- 815mm H when fully raised.
- Electrics: 1350W; plugs into standard 13 amp plug socket
- Weight – 27 kgs

All details correct at time of going to print; effective 19.01.2009. King Edward reserves the right to change to product specifications without prior notice.
