

King Edward Catering Equipment confirms that it operates an alternative commercial arrangement for the management of Waste Electrical and Electronic Equipment (WEEE), in accordance with the Waste Electrical and Electronic Equipment Regulations 2013 (as amended).

This arrangement applies to all electrical and electronic equipment supplied by King Edward Catering Equipment for commercial use only. Responsibility for the financing and organisation of collection, treatment, recovery, and environmentally sound disposal of WEEE derived from these products rests with the end user or purchaser.

Customers are informed of this arrangement through King Edward Catering Equipment's Terms & Conditions of Sale and accompanying documentation. This ensures all purchasers are fully aware that King Edward Catering Equipment does not include the cost of WEEE collection or treatment within the purchase price.

If a customer requires King Edward Catering Equipment to organise collection and treatment of WEEE, this can be arranged on request and will be subject to an agreed service charge.

Products Covered

All commercial catering equipment supplied by King Edward Catering Equipment.
